The fact that these men have siderably the schools' obligations to got caught shows that Japan is still him. He has given over \$4,000,000 to a little behind the times, but the educational institutions and Berea fact that they did it shows how rapid-stands third or fourth on the list of ly she is approaching our standard over thirty which have benefited by of public morality.

REVOLT IN TURKEY:-The revolt in Turkey, mentioned last week is much worse, and it is at least possible the government will be overthrown and the Sultan killed. It will be remembered that about six months ago there was a reform in Turkey, and a constitution was given and a Congress assembled. Power passed tway from the "Liberals" or Sultan party, into the hands of the "Young Turks" or reform party. But the Young Turks had no experience, and ome mistakes, and the Liberals lay low and waited. Finally they got their chance, and joining with some reformers who wanted to go a little slower than the Young Turks, overthrew the Committee which was running things for the latter party. The Young Turks were driven out of the capital, and it looked as if the Liberals would hold the power. But the Young Turks are raising the country, troops are marching on Constantinopole, and it looks as if there was a real civil war coming on. In the general excitement, or perhaps in order to make the European powers interfere and save the Sultan, massacres of Christians have been begun in Armenia. Thousands have been killed and among the dead are at least two American missionaries, Warships have been sent to land sailors and protect foreigners.

STEALING BREAD:-An individual named James A. Patten has during if they could count illicit whiskey. Mr the last week, succeeded in putting his hand into the pockets of all of us who use wheat or wheat products, and in taking from each a small amount of money. The total amount so taken has enriched him over \$5,000,000. His friends, who were permitted to help, have also benefited a good deal. The method by which Mr. Patten worked this pleasant little game, which will result in every poor child in this country going a little bit hungrier, and in those of us who have enough to eat going without something we might have had, is what Mr. Fanning continued. It has no is known as a corner. It is customary for speculators to gamble on the price of wheat, and when the deal is closed simply pay over the difference in money without handling any homes. grain. For instance, one man promises to sell another a thousand bushels of wheat in May at a certain price. When the time comes, if the wheat is selling on the market below that price, then the buyer losso money, as he could have bought in the way of all civic and political Kansas, and 240,000 more children of cheaper from some one else than from the man he bargained with. If, however, wheat is selling for more the stand the temperance people of dien go to school 145.5 days of the than the price agreed on, the seller loses, for he could have got more hibition thru constitutional amendment tucky go 90 days. In Kansas there from some one else. But neither and not thru statutory legislation. He are 12,036 teachers for the common ever turns over the wheat-they simply figure out how much the deal trying county option have quit that tucky has 10,449 teachers with \$2,-(Continued on Fourth Page)

FINE TEMPERANCE SPEECH

One of the best temperatice addresses ever delivered here was given by the Rev. M. J. Fanning in the Chapel Monday night. As a result of his address 226 persons signed the pledge. On his last visit three years ago, Mr. Fanning secured 266 pledges, mak ing a total in this town of 492 pledges due to his work. The large audience which gathered showed how pleasant-Berea remembered the speaker and it may be safely predicted that if he comes again the crowd will even be larger.

After the band had played a number of selections. Prof. Ellis, with a few well chosen remarks introduced Mr. Fanning. The latter is a man of strong personality. He was greeted with a great burst of applause, and quickly put himself in touch with the audience by his ready wit and earnestness in going straight to the subject of his address.

He said that intemperance is the greatest foe of the church of Christ because it robs the church of means and members. The last report of the Commission of Internal Revenue shows that the people of the United States have paid \$2,245,000,000 to the saloon in a single year. Since the government commission reports only on the liquor that is taxed, the figures are necessarily lower than they would be Fanning from his own investigations no claim is made that all this money would go to the church it is self evident that a great deal of it would because the saloon robs the church of its members. Statistics show that in 000 members annually on account of whiskey.' If these men stayed in the

THE BEATEN REFORMER.

During the last few years there has been going on a fight for the reform of the well-entrenched political abuses and corruption which honeycomb our civic life. In city, state and national politics alike we rather suddenly waked some years ago to find that many of our office holders were among our least desirable citizens, and that there were men in the highest positions of trust who are utterly unworthy of any trust whatever. Everywhere small groups of reformers went to work.

After several years, we are hardly able to see that they have ever won a victory at the polls. The professional politicians are still entrenched; in one New Jersey city the fifth successive defeat has been recorded; in New York there have been but two victories in years; and the cry is beginning to go up that it is not worth while, that the people prefer corruption, and that reform is beaten.

It is easy to understand how a man who has worked more or less sincerely for reform and the good of the people, will feel when he has been beaten by the combined forces of corruption and ignorance. It is not pleasant to be beaten, and, with our theory that the majority is right, it is still harder to have our principles repudiated by the people. One is likely to feel that the people are against reform, and that there is nothing worth while to keep one at such a thankless

And yet, tho the reformers are almost always beaten, the reforms almost always win. In the New Jersey town mentioned every one of the reforms advocated ten years ago has been adopted by the practical politicians themselves. What greater victory could there be than to have even the worst-and victorious-enemies, confess the justice of the demands made? In New York the constant fight, never winning, has still forced the corrupt forces further and further under cover, till now the city is really well governed, tho there is not a reformer in office. The politicians have been forced to adopt the reformsthey know that the people, educated by the reformers, will demand what is right, and the beaten reformers see their victorious foes doing the very things they have fought for.

It is always so with an honest, brave, fight for the right. The right wins in the end, tho many and many a man who has fought for the right has been beaten. No right thing has ever failed, nor will it ever fail. Tho beaten again and again it will in the end have the victory, and the men who fight it will in the end go down to lasting defeat. Every great principle which we enjoy today has been fought for for years by men who saw nothing of its success-by men who gave their lives and happiness in the fight-by men who were willing to be defeated for the sake of the right they loved.

And even while the fight is going on there are always signs of victory. A clean, honest fight educates the voters. They may not believe what the reformer says, and they may bury him by their ballots, but they have heard the truth, and by and by, when the dangers he has warned against begin to appear, they will remember and turn against their betrayers. And the victors in a fight of that kind, they are forced to be better officials. They know that the people are wiser, and they know that if the reformers' prophecies come true the voters will turn, at the next election. And if a vigilant reformer is always ready to watch for their crimes, and publish them abroad, the bravest of them will be careful about doing things which cannot stand the light. Tho the final victory for the right may be years away, still no good fight goes even for a time unrewarded—there is complete victory in the distance and a real reward at hand.

Of course there are many men who will say that this reward is not worth working for. They will tell you that a distinct victory, when they may be dead, does not strike them as much of a comfort, and that they cannot see the good of working for reforms which some one else will be allowed to carry out. They insist that they must share the proceeds, or they will not work.

It is on this point that the real test of the sincerity of a reformer comes. Many a man has started out on the right side, because he thought he could make the most out of that side. It was not the right he loved, but himself. And when he has been beaten. he takes little comfort from the fact that the thing he was fighting for is winning. And the next time you are likely to find him at the place where the immediate profits are largest.

But the real man is willing to forget himself and, setting aside his own interests, fight to the death for the right, as God has given him to see it. Such a man cares nothing whether he fall or winhis whole soul is centered on the fight he is making, like a soldier in battle, and tho he fall he will drop contented, knowing that his side will win in the end.

Such men are the real leaders of our race, of our civilization. The more truly they lead, the less likely are they to win popular applause—the farther they are in advance, the fewer will appreciate them. But, their principles and their fight will be recognized long after their opponents have been forgotton, or stuck up as scarecrows in the field of history, and their work will become part of the fabric of our civilization—the heritage of the race.

Surely, for any man that has in him a single spark of real manbood there can be no moment's doubt which side of the fight he will take! Surely such a man, tho beaten, will not despair, nor seek comfort. For he knows that in the end complete victory shall be with him, and that even now the fruits of the victory are beginning to be reaped. But the man who has stolen victory, the corruptionist and thief, he may well tremble and despair, because for him the future surely holds defeat-here and hereafter.

IN WASHINGTON

No Danger of Long Wheat Famine, Sec'y Wilson Says-Big Things May Happen in Capitol Soon-Tariff Commission Likely - Our Weekly Letter.

Washington, D. C. April 19, 1909.

The United States Agriculture Department hotly denies that there is any danger of continued high prices for wheat, Secretary Wilson believes that the wheat-growing possibilities of the country have hardly been touched as yet. He points out that in New England where the land is extremely poor the average yield of wheat per acre is much higher than in the West where the soil is rich. There have been very wasteful methods of wheat raising. The Department of Agriculture has for many years estimated the amount of wheat which would be grown each year, and have never missed it more than from five to ten per cent. Their estimate this year is that the production is about the same as last year. If that is the case the so-called "wheat soon collapse, and the price of wheat will go down to the neighborhood of wheat the more people will use corn looks good for the southern farmer.

SOMETHING DOING.

A number of big things seem about the mountains. to happen.

This week has made it seem probable that an income tax law will be passed in connection with the tariff bill,-which no one could have foreseen a week ago. On Thursday Senator Bailey of Texas introduced an amendment providing for a tax of three per cent on all incomes over \$4000 a year. He made a great speech, too. Bailey's character may not be what it should, but his head is one of the best the Democrats can boast. It appears that the Democrats are solidly in favor of the tax, and that there are enough Republicans who will vote for it so that it can be passed even against the will of the come tax amendment of their own, giving the glory for the measure to the party which it belongs, the Republican.

This week has made it seem probable, too, that America will have a tariff commission, like Germany, Japan and other progressive countries. While it is true that Congress ought to do the deciding of all important questions in regard to the tariff, still Congress ought to be spared the work of collecting the material on which those decisions are based. Of course the danger is that the clerks of the Commission will be bribed to make the figures show that manufacturers need protection when they really do not. But there are a sufficient number of honest men working in the Government departments today who have like opportunities to betray facts or mistort figures and are not doing it so that an honest tariff commission is an unquestioned possibility. Senator Aldrich and Mr. Taft both seem to be turning toward the tariff commission plan. Senator Cummins of Iowa, who by the way is making a rather favorable impression now by his energetic yet well-judged activities, introduced

One reason for the favorable reception which is given to the income shown in quotations from Bishop all the Government's work, under And when the i's are dotted, to prove Bowman, James G. Blaine and the Senator Hemenway, but this committee that he's the cheese, he punctuates is not very hopeful of saving a great each paragraph and crosseth all his deal in the way. The income tax

The legislators are going at the tariff rather slowly. This is a good ways to keep men from the saloons thing. A poorly made tariff, which close for the reply. would throw the country into a spasm next election and necessiate the doing of the work all over again, would be a great misfortune.

President Taft sent the second message to Congress on Thursday, It was think and men think lots of things very short, and simply recommended that the Philippines be allowed free (Continued on fourth page)

Postponement-Col. C. J. Bronston, Leading Democrat, Dead-Railroad Planned for the Mountains, it is Said.

HARGIS TRIAL:-The second trial of Beech Hargis for the murder of his father was called in Irivine Monday. Thirteen lawyers are on hand to defend the accused boy, and the trial promises to be as hard fought as the other. A motion for postponment has been refused.

BRADLEY NOT COMING:-It is now stated that Sen. Bradley will stay in Washington and attend to his duties, instead of coming to Irvine to defend Beech Hargis.

MAY MUSICIAL FESTIVAL:-A Music Festivial will be held at Louisville May 6, 7 and 8. The New York Symphony Orchestra, perhaps the finest musical organization in the country, under the leadership of Walter Damrosch will have charge of the programs.

COL BRONSTON DEAD:-Col. C. J. Bronston, a prominent attorney and corner" of James A. Patten will Democratic politician of Lexington, died there last week.

PLANTING TOBACCO:-When there has been a high price for a certain crop one year, there is a big rush of farmers to plant that crop the next year, and the market will be so glutted that the price will go way down and they will all lose. Only once in a while some thing like the failure of the crop somewhere else saves them. This is what is happening to tobacco in Kentucky. Last year after a terrible fight the tobacco was sold out at a fancy price. This year every man that can is going to plant tobacco. At the same time Connecticut and other states, which enlarged their tobacco fields last year to make up for the shortage caused by the stances the leaders are expected to Kentucky troubles, are planting heavido the wise act of introducing an in-come tax amendment of their own ever raised. This will probably mean that the price will be the lowest on record, for the trusts cannot be forced into paying a high price when there is plenty that it can get cheap. Watch for fireworks in the tobacco market in the fall, but if you want to enjoy them don't plant any tobacco yourself.

COL. GEO. BAINE

The last lecture of the regular lyceum lecture course in Berea will be given next Tuesday night, April 27, by Kentucky's well known orator, Colonel Bain. Let everybody come to hear and honor the speaker.

The Lyceum committee appreciate the generous patronage of the public this year. An expensive course has been presented at prices, for season tickets lower than ever before. A very strong and attractive course is being planned for the coming year. Admission Tuesday night only 30

Writing for Publication.

The reason why so many writers fail is because they try to write when they have nothing to say. Or, if they really have ideas, they are unable to express themselves clearly. The amateur must keep to the short sentence. It is much safer. Do not fancy that one can merely sit down and write. An article must be planned as the architect designs the dwelling, every detail being carefully thought out and

There is a man in our town, and he is wondrous wise; when he writeth t's. Upon one side alone he writes, hibition in the United States Mr. Fan-would bring in something like sixty and never rolls the leaves; so from oft receives. And when a question he doth ask (he's truly a wise guy), a two-cent stamp he never fails to in-

Beneficent Bacon.

It is a well known fact that bacon cut thin, well cooked, brown, crisp and dry, can be taken regularly and for a long time by those who find all other fats intolerable. This makes it a valuable article for delicate children and others who are weak and fastidious.-Harper's Bazar.

SO A.WEIL THE MAN of the HOURS

"Miss Smith"-Her Voice Sank Portentously-"Was a Trained Nurse."

SYNOPSIS.

The story opens at Harvard where col. Rupert Winter, U. S. A., visting, saw the suicide of young dercer. He met Cary Mercer, brother f the dead student. Three years later, a Chicago, in 1906, Col. Winter overgard Cary Mercer apparently planning. heard Cary Mercer apparently planning to kidnap Archie, the colonel's ward, and to gain possession of Aunt Rebecca Win-ter's millions. A Miss Smith was mentioned, apparently as a conspirator. Winter unexpectedly met a relative, Mrs. Millicent Melville, who told him that his Aunt Rebecca, Archie and the latter's nurse. Miss Janet Smith, were to leave the west with the colonel and Mrs.

CHAPTER I .- Continued.

"We've been worried a good deal," pursued Mrs. Melville, "about the way Aunt Rebecca has acted. She wouldn't stay in Fairport, where we could have some influence over her. She was always going south or going to the seashore or going somewhere. Sometimes I suspect Miss Smith made her, to

keep her away from us, you know." Well, as long as I have known Aunt Rebecca-anyhow, ever since Uncle Archibald died-she has been restless and flying about."

only had her maid-" "Oh, yes, Randall; she's faithful as

"Not as she is now. And then she

they make 'em. What does she say about Miss Smith?". "Bertie. she's won over Randall Randall swears by her. Oh, she's's

deep!" "Seems to be. But-excuse mewhat's your game, Millicent? How do you mean to protect our aged kins-

woman and, incidentally, of course, the Winter fortune?" "I shall watch, Bertie; I shall be on my guard every waking hour. That

deluded old woman is in more danger, perhaps, than you dream." "As how?"

"Miss Smith"-her voice sank portentously-"was a trained nurse." "What harm does that do-unless you think she would know too much

about poisons?" The colonel laughed. "It's no laughing matter, Bertie. Rebecca is so rich and this other woman is so poor, and, in my estimation, so ambitious. I make no insinuations, I only say she needs watching."

"You may be right about that," said the colonel thoughtfully. "There is Haley and the boy for your bags!"

The boy picked up the big dress suit case, the smaller dress-suit case and the hat case, he grabbed the bundle of cloaks, the case of umbrellas, and the lizard-skin bag. Dubious ly he eyed the colonel's luggage, as he tried to disengage a finger.

"Niver moind, young feller," called Haley, peremptorily whisking away the nearest piece, "I'll help you a bit with yours, instead; you've a load,

Mrs. Melville explained in an undertone: "I take all the hand-luggage I possibly can; the overweight charges are wicked!"

"Haley, they won't let you inside without a ticket," objected the colonel. But Haley, unheeding, strode on ahead You fixed, letting me say good-by to of the staggering youth.

"I have an English bathtub, locked,

but he has put that in the car," said Mrs. Melville

"Certainly," said the colonel absently; he was thinking: Mrs. Winter, the boy, Miss Smith-how ridiculously complete! Decidedly something will bear watching.

CHAPTER II. Aunt Rebecca.

No sooner was Mrs. Melville ushered into her section than the colonel went through the train. He was not so suspicious as he told himself he might have been, with such a dovetailing of circumstances into his accidentally captured information: he couldn't yet read villainy on that college lad's frank face. But no reason, therefore. to neglect precautions. "Hope the best of men and prepare for the worst," was the old campaigner's motto.

A walk through the cars showed him no signs of the two men. It was a tolerably complete inspection, too. There was only one drawing-room or stateroom of which he did not manage to get a glimpse-the closed room being the property of a very great financial magnate, whose private car was waiting for him in Denver. His door was fast, and the click of the typewriter announced the tireless industry of our rulers.

But if he did not find the college boy or the man with the moles he did get a surprise for his walk; namely, the sight of the family of Haley, and Haley himself beside their trig, battered luggage, in a section of the car next his own. Mrs. Haley turned a guilty red, while Haley essayed stolid demeanor.

"What does this mean?" demanded the colonel.

"Haley felt he would have to go with you, colonel," replied Mrs. Haley, who had timid, wide, blue eyes and the voice of a bird, but a courage under her panic, as birds have, too, when their nests are in peril. "We've rinted the house to a good man with grown-up children, and Haley can get a job if you won't want him."

"Yis, sor," mumbled Haley. He was standing at attention, as was his wife, the toddling Nora being held in the posture of respect on the plush seat. "And I suppose you took the furniture money to buy tickets?"

"Yis, sor." "And you're bound to go with me?"

"Yis, sor," said Haley. "You ought to be ashamed of your self, sergeant," said the colonel; but he was glad at the heart of him for

this mutinous loyalty. "Yes, sor,' said Haley. "Well, since you are here, I engage

you from to-day, you understand." "Yis, sor," said Haley. Mrs. Haley whimpered a blessing; but the only change in the soldier was that his military stolidity became natural and real instead of forced.

"Sit down on this seat over here with me and I'll tell you what I want.

"I didn't want to take the liberty,

a weight off me moind, sor."

COPYRIGHT, 1907_

"I dare say. You always have your way with me, you old mule. Now listen; I want you to be on the watch for two men"-thereupon the colonel described his men, laying special stress on the moles on the face of one, and the other's dimple.

Having set Haley his tasks, he went back to his car in better spirits.

By this time the train was moving. He had seen his kinswoman and her party enter; and he found the object of Mrs. Melville's darksome warnings sitting with a slender lad in the main body of the car. Aunt Rebecca was in the drawing-room, her maid with her. Mrs. Melville, who had already revealed her presence, sat across the you?" aisle. She presented the colonel at once.

Miss Smith did not look formidable; she looked "nice" thought the colonel. She was of medium height; she was obviously plump, although well proportioned; her presence had an effect of radiant cleanliness, her eyes were so luminous and her teeth so fine and her white shirt waist so immaculate. There was about her a certain soft illumination of cheerfulness, and at the same time a restful repose; she moved in a leisurely fashion and she sat perfectly still. "I never saw any one who looked less of an adventuress." Winter was thinking, as he bowed. Then swiftly his glance went to the lad, a pale young fellow with hazel eyes and a long, slim hand which felt cold.

The boy made a little inarticulate sound in his throat and blushed when Col. Winter addressed him. But he looked the brighter for the blush. It was not a plain face; rather an interesting one in spite of its listlessness and its sickly pallor; its oval was purely cut, the delicate mouth was closed firmly enough, and the hazel eyes with their long lashes would be beautiful were they not so veiled.

"He has the Winter mouth, at least," noted the colonel. He felt a throb at his heart. Had his own boy lived, the baby that died when it was born, he would be only a year older than Archie. At least, this boy was of his own blood. Without father or mother, but not alone in the world; and, if any danger menaced, not without defenders. The depression which had enveloped him lifted as mist before the sun, burned away by the mere thought of possible difficulties. "We will see if any one swindles you out of your share," said Rupert Winter, compressing the Winmore firmly gentlemanly kidnapers mean you."

His ebbing suspicion of the boy's companion revived; he would be on his guard, all right.

"Aunt Rebecca wants to see you," Mrs. Melville suggested. "She is in the drawing-room with her solitaire.' "Still playing Penelope's Web?"

"Oh, she always comes back to it But she plays bridge, too; Rupert, I hear your game is a wonder. Archie's been learning, so he could play with

"Good for Archie!"-he shot a glance and a smile at the lad's reddening face-"we'll have a game." "Lord, I wish he didn't look quite so

ladylike," he was grumbling within, as he dutifully made his way to his aunt's presence.

The electric lights flooded the flimsy railway table on which were spread rows of small-sized cards. An elderly lady of quality was musing over the pasteboard rows. A lady of quality-that was distinctly the phrase to catch one's fancy at the first glimpse of Mrs. Winter. Not an aged lady, either, for even at 80, that ele gantly molded, slim figure, that abundance of silvery hair-parted in the middle and growing thickly on each side in nature's own fashion, which art can not counterfeit, as well as softly puffed and massed above-that exquisitely colored and textured skin. strangely smooth for her years, with tiny wrinkles of humor, to be sure, about the eyes, but with cheeks and skin unmarred: that fine, firmly carved profile, those black eyebrows and lashes and still brilliant dark eyes: most of all that erect, alert, dainty carriage, gave no impression of age; but they all, and their accessories of toilet and manner, and a little prim touch of an older, more reticent day in both dress and bearing, recalled the last century phrase.

A soft gray bunch of chinchilla fur lay where she had slipped it on her soft gray skirts; one hand rested in the fur-her left hand-and on the third finger were the only rings which she wore, a band of gold, worn by 60 years, and a wonderful ruby, wherein (at least such was Rupert's phantasy) a writhing flame was held captive by its guard of diamond icicles. The same rings admired by her nephew ever since he was a cadet-just the same smiling, inscrutable, high-bred, unchanging old dame!

"Good evening, Aunt Rebecca; not

a day older!" said the colonel. "Good evening, Bertie," returned the lady, extending a hand over the cards; "excuse my not rising to greet you; I might joggle the cards. Of course

was afraid you'd catch on, sor. 'Tis | grow older at my age! Sit down. I'm extremely glad to see you; I've a heap to talk to you about. Do you mind if I run this game through first?"

BOBBS-MERRILL CO.

The colonel didn't mind. He raised the proffered hand to his lips; such homage seemed quite the most natural act in the world with Mrs. Winter. And he unobtrusively edged his own lean and wiry person into the vacant seat opposite her.

"How far are you going?" said she, after a few moves of the cards.

"My ticket says Los Angeles; but it had to say something, so I chose Los Angeles for luck; I'm an irresponsible tramp now, you know; and I may drop off almost anywhere. You are for southern California, aren't

"Eventually; but we shall stop at San Francisco for two or three weeks "

"Do you mind if I stop off with you? I want to get acquainted with my ward," said the colonel.

"That's a good idea, Bertie." "He seems rather out of sorts; you aren't worried about-well, tuberculosis or that sort of thing?"

"I am worried about just that sort of thing; although the doctor says nothing organic at all is the matter with him; but he is too melancholy for a boy; he needs rousing; losing his father and mother in one year, you know, and he was devoted to them. I can't quite make him out, Bertie; he hasn't the Winter temperament. suppose he has a legal right to his mother's nature; but it is very annoying. It makes him so much harder to understand-not that she wasn't a good woman who made Tom happy; but she wasn't a Winter. However, Janet has brightened him up considerably-you've seen Janet-Miss Smith? What do you think of her?"

Winter said honestly that she was very nice-looking and that she looked right capable; he fell into the idiom of his youth sometimes when with a southerner.

"She is," said Aunt Rebecca. "Where did you find her?" asked the colonel carelessly, inspecting the cards.

Aunt Rebecca smiled. "I thought Millicent would have given you all the particulars. She was nurse, secretary, companion and diet cook to Cousin Angela Nelson; when she died I got her. Lucky for me."

"So I should judge," commented the colonel politely.

"I presume Millicent has told you that she is an adventuress and after operation is necessary to dislodge it! Janet is the only mortal person who could live with poor Cousin Angela, her and enough imaginary ones to kill anybody who lived with her! Janet made her comfortable, would not stand everything on earth from her-though she did stand a heapand really cared for her. When she died Cousin Angela left her some money; not very much, but a few thousands. She would have left her more, but Janet wouldn't let her. She left some to some old servants, who surely deserved it for living with her, some to charities and the rest to her sisters, who hadn't put a foot inside the house for 15 years, but naturally resented her not giving them everything. I reckon they filled Millicent up with their notions." She pushed

the outspread cards together. "You had several moves left." said

the colonel. "Four. But then, I was finished. Bertie, you play bridge, of course; and

I used to hear of your whist triumphs; how did you happen to take to whist?' "To fill up the time, I reckon. I began it years ago. Now a soldier's life is a great deal more varied, because a man will be shifted around and get a show of the different kinds of service. And there are the exams., and the Philippines-oh. plenty of diversions. But in the old days a man in the line was billed for an awfully stupid time. I didn't care to take to drink; and I couldn't read as you do if I'd had books, which I hadn't, so I took to playing cards. I played skat and poker and whist, and of late years I've played bridge. Millicent plays?"

"Millicent is a celebrated player She was a great duplicate-whist player, you know. To see Millicent in he glory, one should play duplicate with her. I'm only a chump player; my sole object is to win tricks."

"What else should it be?" Aunt Rebecca smiled upon him. "To give information to your partner. The main object of the celebrated American-leads system is signaling information to your partner. Incidentally, one tells the adversaries, as well as one's partner, which, however, doesn't count really as much as you might think; for most people don't notice what their partners play very much, and don't notice what their adversaries play at all. Millicent is always so busy indicating things to her partner and watching for his signals course, and packed with things, sor, but you made me shake hands. I I'm not a day older: I don't dare to cross ruff in on her without her sus- often her hand had been on those museum.

my money and a heap more stuff. If came," said Mrs. Winter, with a faint she hasn't she will. Get a notion clouding of her keen gaze. "Since once in Millicent's head and a surgical | then he hasn't taken much interest in anything. Janet has brightened him up more than anyone; and when he heard you were coming that did rouse who had enough real diseases to kill him. You are one of his heroes. He's that sort of a boy," she added, with a tinge of impatience in her soft southern voice. As if to divert her thoughts, she began deftly moving the cards before her. Her hands showed the blue veins more prominently than they show in young hands. This was their only surrender to time; they were shapely and white, and the slim fingers were as straight as when the beaux of Fairfax county would have ridden all day for a chance to kiss them. The colonel watched the great ruby

wink and glow. The ruby was a part

of his memories of his aunt; she had always worn it. He remembered it, when she used to come and visit him at the hotel at West Point, dazzling impartially officers, professors, cadets and hotel waiters. Was that almost 40 years ago? Well, 34 anyhow! She had been very good, very generous to all the young Winters, then. Indeed, although she never quite forgave him for not marrying the wife of her se lecting, she had always been kind and generous to Rupert; yet, somekow, while he had admired and found a humorous joy in his Aunt Rebecca, he wondered if he had ever loved her. She was both beautiful and brilliant when she was young, a southern belle, a northern society leader; her life was full of conquests; her footsteps, which had wandered over the world, had left a phosphorescent wake of admiration. She had always been a personage. She was a power in Washington after the war; they had found her uniquely delightful in royal courts long before Americans were fashion; she had been of importance in New York, and they had loved her epigrams in Boston; now, in her old age, she held a veritable little court of her own in the provincial western city which had been her husband's home. He went to congress from Fairport; he had made a fortune there, and when he died, many years ago, in Egypt, back to his western home, with dogged determination and lavish expenditures of both money and wit, his widow had bought him to rest. The most intense and solemn experience of a woman she had missed, for no children had come to them, but her husband had been her lover so long as he lived, and she had loved him.

nearest of her blood, the friends of "How about Archie? Can he play a her middle life-all had gone into the dark: vet here she sat, with her "Very fair for a boy of 14; he was smooth skin and her still lustrous fond of whist until his troubles eyes and her fragrant hands, keenly smiling over her solitaire. The col onel wondered if he could ever recon cile himself with such philosophy to his own narrowed and emptied life; she was older than he, yet she could still find a zest in existence. All the great passions gone; all the big interests: and still her clever mind was working, happy, possibly, in its mere exercise, disdaining the stake, she who had had every success. What a vitality! He looked at her, puzzling Her complexity bewildered him, he not being of a complex nature himself. As he looked, suddenly he found himself questioning why her face, in its revival of youthful smoothness and tint, recalled some other face, recently studied by him-a face that had worn an absolutely different expression; having the same delicate aquiline nose, the same oval contour, the same wide brows-who? who? queried the colonel. Then he nodded. Of course; it was the man with the moles, the brother. He looked enough like Mrs. Winter to be her kinsman. At once he put his guess to the test. "Aunt Becky." said he, "have you any kin I don't know about?"

"I reckon not. I'm an awfully kinless old party," said she serenely. "I was a Winter, born as well as married, and so you and Mel and Archie are double kin to me. I was an only child, so I haven't anything closer than third or fourth cousins, down in Virginia and Boston."

"Have you, by chance, any cousin

near or far, named Mercer?" Resting her finger-tips on the cards, Aunt Rebecca seemed to let her mind search amid Virginian and Massachusetts genealogical tables. "Why, certainly," she answered after a pause, 'there was Gen. Philemon Mercerconfederate army, you know-and his son, Sam Nelson; Phil was my own cousin and Sam Nelson my second, and Sam Nelson's sons would be my third, wouldn't they? Phil and Sam are both dead, and Winnie Lee, the daughter, is dead, and poor Phil-the grandson, you know-poor boy, he shot himself while at Harvard; but his brother Cary is alive."

CONDENSED FOR BUSY PEOPLE.

Hotel Keepers' Association Meets in Louisville and Elects Officers-- Parcels Post Condemned as Detrimental to the Hotel Business.

Louisville, Ky.-The following officers were elected by the Kentucky Ho. tel Keepers' association, in convention Nic Bosler, Louisville, president; H. G. Dougherty, Maysville, vice president; R. L. Parks, Pineville, treasurer, and W. D. Claybrooke, Springfield, secretary. The president was instructed to appoint an executive committee to consist of five members whose duty it will be to look out for the interests of the association and keep in touch generally with the situation concerning the hotel men of the state, and to consider and advise in regard to legislation desired. Resolutions condemning as detrimental to him. The indictment was dismissed the hotel business the parcels post were adopted before adjournment The committee on laws was instructed to draw up a draft to be introduced at the next legivslature which will permit the hotel keepers to hold and sell the baggage of the guests who leave without paying their bills.

CHARGES RENEWED

By Secretary of State Bruner of Mis management of Citizens' Life Insurance Co.

Louisville, Ky .- At the regular quar terly meeting of the directors of the Citizens' Life Insurance Co., held here Secretary of State Ben. L. Bruner, one of the directors of the company, re newed his charges that the officers of the concern were mismanaging its affairs. One of Dr. Bruner's allegations is that the company is advertising its business extensively, and is not giving ey must be returned to the state. to the public a true statement of its condition. It was announced that the Citizens' Life Insurance Co. would not take over the Southern Life Insurance Co. of North Carolina, as another company had purchased the business of the Carolina concern. However, B. W. Lacey, Jr., a former vice president of the North Carolina company, has come to the Citizens' Life as director of agencies. President Gregory said that the directors had decided not to declare any dividends on the capital stock of the Citizens' Life for 1909. One director of the company made the assertion that Commissioner Bell intended to ask the removal of R. E. Gregory as vice president of the Citizens' Life, and the reduction of all salaries of officers to the 1908 basis, salaries having been raised the first of the pres

Politicians in Kentucky Dies at Lexington.

Lexington, Ky .- This city was shock ed by the announcement of the death of ex-State Senator Charles J. Bronston, 60, one of the best-known lawwas a sufferer from heart disease, which caused his death. Senator Bronston figured largely in the affairs of the state and had a large acquaint ance. He was state senator from 1895 to 1899, being elected from the Lexington district. He came originally from Richmond, Madison county. He was at one time commonwealth's at torney, and figured in numerous brilliant legal battles. The late Gov. Wil. liam Goebel always regarded Bronston as one of his warmest friends and supporters. He was a graduate of the Transylvania university and former law partner of Senator McCreary,

> not always grow as readily or as vigorously as might be expected from the richness of the soil. In recent years it has been discovered by scientists that the growth of plants of this class (clovers, peas and beans) is dependent to some extent on the presence of small nodules or bunches on the roots. These nodules contain bacteria which in some mysterious way assist the roots in taking up food from the soil. If these bacteria are not present in the soil the clovers will be likely to make poor growth-indeed alfalfa may not make any growth. If the proper kind of bacteria are supplied and the inoculation of soil and root is success-

Cultures containing these bacteria have been sent out to farmers from the Ontario Agricultural college for the past four years, with directions the society will control more than of for applying to the fields that are being seeded with clover. building a wire fence, it is necessary to cross a small ravine or depression in the field. In such cases it is sometimes a puzzle how to anchor the post in the lowest place, so that it will not "pull out" when the wires are tightened. The accompanying drawing shows a good method of solving the problem. A wire (doubled to secure strength) is stretched from the bases of the two posts near the ravine edge, over the top of the lower post.

To Make Concrete Cistern.-Cistern walls should be eight inches thick and floor four inches thick as the cistern is very large. Material will be: Cement. 13 barrels; gravel, 13 yards; sand, one gravel to one part cement. Mortar

NURSERY AND ORCHARD 1855 Berea College 1908.

FOR THE ASPIRING YOUNG PEO-PLE OF THE MOUNTAIN.S

Places the BEST EDUCATION in reach of all.

Over 60 instructors, 1175 students from 27 states. Largest college library in Kentucky. NO SALOONS.

A special teacher for each grade and for each main subject. So many classes that each student can be placed with others like himself, where he can make most rapid progress.

Which Department Will You Enter?

THE MODEL SCHOOLS for those least advanced. Same lectures library and general advantages as for more advanced students. Arithmetic and the common branches taught in the right way. Drawing, Singing, Bible, Handwork, Lessons in Farm and Household Management, etc. Free text

TRADE COURSES for any who have finished fifth grade (fractions and compound numbers), Brickwork, Farm Management, Printing, Woodwork, Nursing, Dressmaking, Household Management. "Learn and Earn."

ACADEMY, REGULAR COURSE, 2 years, for those who have largely finished common branches. The most practical and interesting studies to

fit a young person for an honorable and useful life. CHOICE OF STUDIES is offered in this course so that a young man

may secure a diploma in Agriculture and a young lady in Home Science. ACADEMY, COMMERCIAL, 1 year or 2 years to fit for business. Even part of this course, as fall and winter terms, is very profitable. Small

ACADEMY, PREPARATORY, 2, 3 and 4 year courses, with Latin, Geo man, Algebra, History, Science, etc., fitting for college.

COLLEGIATE, 4 years, Literary, Scientific and Classical courses, with use of laboratories, scientific apparatus, and all modern methods. The highest educational standards.

NORMAL, 3 and 4-year courses fit for the profession of teaching. First year, parallel to 8th grade Model Schools, enables one to get a first-class certificate. Following years (winter and spring terms) give the information, culture and training necessary for a true teacher, and cover branches neces sary for State certificate.

MUSIC, Singing (free), Reed Organ, Voice Culture, Plano, Theory, Band, may be taken as an extra in connection with any course. Small extra

Expenses, Regulations, Opening Days.

Berea College is not a money-making institution. All the money received from students is paid out for their benefit, and the School expends on an average upon each student about fifty dollars a year more than he page in. This great deficit is made up by the gifts of Christian and patriotic people who are supporting Berea in order that it may train young men and women for lives of usefulness.

OUR SCHOOL IS LIKE A FAMILY, with careful regulations to protect the character and reputation of the young people. Our students come from the best families and are earnest to do well and improve. For any who may be sick the College provides doctor and nurse without extra charge.

All except those with parents in Berea live in Collego buildings, and assist in work of boarding hall, farm and shops, receiving valuable training, and getting pay according to the value of their labor. Except in winter it is expected that all will have a chance to earn as much as 35 cents a week. Some who need to earn more may, by writing to the Secretary before coming, secure extra employment so as to earn from 50 cents to

PERSONAL EXPENSES for clothing, laundry, postage, books, etc., vary with different people. Berea favors plain clothing. Our climate is the best, and underclothing, umbreilas and overshoes, are necessary. The Co-operative Store furnishes books, toilet articles, work uniforms, umbrellas and other necessary articles at cost.

LIVING EXPENSES are really below cost. The College asks no rent for the fine buildings in which students live, charging only enough room rent to pay for cleaning, repairs, fuel, lights, and washing of bedding and towels. For table board, without coffee or extras, \$1.35 a week in the fall, and \$1.50 in winter. For room, furnished, fuel, lights, washing of bedding, 40 cents a week in fall and spring, 50 cents in winter.

SCHOOL FEES are two. First a "Dollar Deposit," as guarantee tor return of room key, library books, etc. This is paid but once, and is returned

Second an "Incidental Fee" to help on expenses for care of school buildings, hospital library, etc. (Students pay nothing for tuition or services of teachers-all our instruction is a free gift). The Incidental Fee for most students is \$5.00 a term (\$4.00 in lower Model Schools, \$6.00 in courses with Latin, and \$7.00 in Collegiate courses).

PAYMENT MUST BE IN ADVANCE, incidental fee and room rent by the term, board by the half term. Installments are as follows: WINTER-12 weeks, \$29.00,-in one payment \$28.50.

Installment plan: first day \$21.00 (including \$1.00 deposit), middle of

SPRING-10 weeks, \$22.50,-in one payment, \$22.00. Installment plan: first day \$16.75, (including \$1.00 deposit), middle of

SPRING-4 weeks' term for those who must leave for farm work

SPRING-7 weeks' term for those who must leave for teachers' ex aminations, \$16.45.

Winter and Spring terms together, one payment, \$49.00.

REFUNDING. Students who leave by permission before the end of a term receive back for money advanced as follows: On board, in full except that no allowance is made for any fraction of

On room, or on any "special expenses," no allowance for any unes pired fraction of a month, and in any case a forfeiture of fifty cents.

On Incidental Fee, when one leaves before the middle of the term, . certificate is given allowing a student to apply one-half the fee for term bills when he returns, provided it is within four terms.

IT PAYS TO STAY-When you have made your journey and are well started in school it pays to stay as long as possible.

The first day of Winter term is January 6, 1909. The first day of Spring term is March 25th, 1909.

For information or friendly advice, write to the Secretary.

It makes possible the go on for years and as long as you farming on some piece of land for hundreds of years without a rest, will never run short. and at the end the soil will be better than it was in the beginning. Why is this possible? Because of the ten or more food elements that a plant uses only three are scarce and costly. Nitrogen, Phosphorus and Potassium. In buying fertilizers we find that nitrogen costs about 16 cts. a pound, the other two 4 and 5 cts. Corn uses a large amount of nitrogen, and a small amount of the less costly elements. We see why all plants that use a large amount of nitrogen are hard on the soil.

It has been found that a certain kind of plants known as legumes, rye. have the power of taking nitrogen out of the air and putting it into the soil. Examples of such plants are Red clover, Crimson clover, Japan clover, Alsike clover, Alfalfa, Soy Beans, Cow peas and others. Now if we follow, or precede corn with a legume, it will put in the soil a large amount of the costly element, nitro- tions. gen, and keep the supply from running short.

Rotation means an order of changing the crop so no two will be in succession, using a large amount of the

Safety for Submarine Crew.

Crews of British submarines are taught how to use a safety helmet and waterproof jacket designed to save them in case the submarine on which they are engaged is sunk. The men are taught in a special tank and are lowered into the water in a kind of diving bell. They learn to put on the helmet and jacket-which carry a store of air capable of being used over and over again and which can be put on in 30 seconds-and also how to leave the sunken vessel.

Clothing and Temperature.

The whole theory of clothing and its relation to temperatures is condensed by Dr. Wachenheim in the following paragraph, which will probably suggest where many mysterious colds come from: "The nude body of a healthy adult, when at rest, maintains its normal warmth of 99 degrees most easily at an air temperature of about 80; this may be called the indifferent temperature, and is reduced by very light summer clothing to about 75, by heavy winter dress to about 65 de grees; under these circumstances we feel just comfortable when lying down or otherwise inactive."

The Jew In History.

Long before Socrates taught philosophy, or before Herodotus wrote history. Israel had an organized civilization. It has literature before most nations had letters, and art while other nations knew only war and savagery. Draper says that "they (the Jews) were our factors and bankers before we knew how to read."

Permanent Superstition.

Human credulity seems to be a per manent fact, independent of civilization, of education and of the progress of mankind. The astrologer or the witch may be discredited; but in their place arise the palmist and theoso

****** **Greatest Sunrise** of Ages

By REV. A. C. DIXON, D. D., Pastorof the Chicago Ave. (Moody's) Church, Chicago,

************************ As the sun rises everything in the world adjusts itself to the great event. The birds of the day awake and begin to sing. The birds and beasts of the night hie away to their dens and hollow trees Workingmen rise from their sleep and start for their places of toil.

Farmers hear its call and go about their work. Business men may sleep later, but the rising sun soon drives them to their banks stores and factories. Moon and stars which have made the night glorious are now out of commission. Grass. flower, shrub and tree feel the touch of the warm ravs and revive Every sunrise is truly a great event in the history of the world, though our familiarity with it may cause us to overlook its importance. It regulates the movements of kings in their palaces, generals at the head of armies, parliaments and legislatures. "There is nothing hid from the heat thereof." Every kind of life, animate and inanimate, welcomes its genial warmth and rejoices in its quickening power.

The birth of Jesus was a sunrise upon the world and all worlds adjusted themselves to it. It is interesting to trace the rise of this Sun of righteousness in prophecy. The promise that the seed of the woman should bruise the serpent's head is the first gleam of light in the east. The promise to Abraham that in his seed all the families of the earth should be blessed chers' professional books. Chief is a brightening of the eastern sky; among these is his Physchology in Edu- and as we trace the Messianic idea through the Old Testament, the light grows brighter till in the fifty-third chapter of Isaiah we are in the morning twilight. John the Baptist, though a burning and shining light, is only old boy." the morning star proclaiming that the sunrise is near.

The birth of Jesus wakes up Herod, that wild beast of darkness, who represents the pagan world powers. Herod seeks to kill him, but his efforts are like shooting arrows at the rising sun. Children are slain and parents suffer. but the sun shines on. World powers down the ages have conspired to blot this sun out of the heavens. But these world powers have passed away like mist before the sun, which shines all

the more brightly. Learning and Wealth.

The coming of the wise men from the east suggests the proper relation of learning and wealth to Christ. They have seen his star in the east and have come to worship him. Though be as a sure indication of guilt, wildered on their arrival in Jerusalem, they persist in their search until they find the Child, before whom they bow with their gifts of gold, frankincense are you?" and myrrh. There is a yearning in the stars nor the speculations of philosophy will satisfy it. The knowledge needn't deny it," his wife went on, of the greatest things God has made breathlessly. "How dare you carry on is no substitute for the knowledge of us back to its creator, and the more spect? What do you mean by profeswe know of the works of God the more we desire to know God, whose wis dom, power and love they display. Ignorance is not the mother of devotion, but of superstition.

All Should Lead to God.

poetry with God eliminated has been a failure, and the explanation is easy. The true poet interprets things as they are, and any system of poetry or philosophy which ignores God is unnatural, shallow and artificial. Astronomy, botany, physiology, history, and philosophy join with religion in leading us to God; and when, like the wise orientals, we become earnest and persistent in our search for God, we will wend our way with them to the manger in Bethlehem and see there the mystery of the ages-God incarnate in a babe, born of a virgin mother, and our reason will join with our zense of soul need in prompting us to fall before him in worship, for it is reasonable that God, if he wishes to lift man from sin to purity, should become himself a pure man among men.

It was also fitting that these wise men should lay their wealth at the feet of Jesus. As God incarnate, he owns all we have by right of creation; he owns us by right of redemption. We are his stewards. We do business on his capital. The proper place for us and our possessions is at his feet.

These wise men brought frankincense and myrrh with their gold Frankincense was an aromatic resin, which filled the air with its perfume and symbolized praise. Myrrh was a bitter substance, which is a good symbol of repentance. Gold is acceptable to Christ only when we bring it with repentance and praise.

The Real White Slave.

"The real white slave is the wife of the poor drunkard," declared Judge McKenzie Cleland before the Evanston Men's club in a recent address. "The blackest page in American history will be the page telling of our treatment of the drunkard, that unfortunate who is not a criminal, but whom we make one by locking him up. The criminal courts are at least 1,000 years behind the times."

Her Rival

A Wife's Comments on a Conversation by Telephone.

When this man's wife reached his office the other day on a little visit associated with domestic finance he had just been called up on the phone. "Ha!" said the wife, she being a

jealous person. "Some creature is Bacon per lb, 8-13c. calling him up!" So she remained out of view in the

anteroom. "Hello!" said the husband at the phone. "Who's that you say? Oh, it's you, eh, Jack? H'w'are you, pal? Any-

thing coming off?" ("It's that horrid, dissipated, flirta Oats per bu. 65c. tious Jack Hotelip talking to him," said Corn per bu. 90c. the wife to herself. "I always did sus Wheat per bu. \$1,45. pect that man.")

"Huh? Say, is that so?" said her husband through the transmitter. "Mighty glad to hear that. Say, where did you trap her, anyhow?"

("Her!" sniffed the jealous wife. "Oh, I knew there'd be some devilment CATTLE-Shipping steers 4 75 6 00 in the wind with that Hotelip man calling him up.")

"Well, b'jing, I sure am glad you've nailed her, matey," went on the husband at the phone. "Say, is she a sureenough looker?"

("Well, just hear that!" said the wife to herself. "Looker!")

"Honest-Injun thoroughbred, too, you say?" continued her husband at the "Well, me for her, then. I sure want to look her over. What's that? A raging beauty, is she? Well, I guess that's poor. That's the kind Common I'm hunting for

("Oh, such hideous deceitfulness!"

panted the wife in the antercom.) "Y'know I'm pretty tired of having these imitation mutts flashed on me,' the man at the phone went on confidentially. "I want nothing but the real bang up thing. I'm willing to cough Fat sheep up to 5 50. up anything within reason, too, to get the real thing, as I told you.' ("The traitor!" hissed the man's

wife, trembling with rage.)

"Say, you got her there with you now, old man? What's that? Oh, you have, hey? Curled up in your lap right now, eh? Good! But you want to remember that she's as good as mine,

("Curled up in his lap-horrible!" gasped the jealous wife.)

"Look here," went on the unsuspecting husband at the phone, "can't you fetch her down here right away and let me look her over? Let's see, it's pretty near lunch time and I'm sort of expecting my wife down pretty soon, and of POULTRY-Hens 121/2c; roosters 6c; course I don't want my wife to see her, see? But you just trot her down here now and I'll have a peek and then we can fix it. What's that? You'll be over in five minutes? All right, old boy. I'll be waiting."

Whereupon he hung up the receiver and turned to be confronted by his ed 74. white-faced and wrathful spouse.

Naturally he looked surprised. Just as naturally she took his surprised look

"So, sir," she opened up, "you are going to have that Jack Hotelip bring some wretched tawdry creature here

man nailed with the merchandise.

"Oh, I heard every single, solitary word you said in the phone, so you in such a manner right here in your sing to l-l-love m-m-me, and t-t-then-She was relapsing into angry tears

and of course he tried to take hold of her to comfort her and square him

"Don't you d-d-dare to t-t-touch Every one who has tried to write m-m-me!" she gurgled, shaking him off. "I hate the v-v-very t-t-touch of your h-h-hand, you scandalous, deceitful thing!'

"But look a-here, my dear," he began, "you're all dead wrong, you know. Lemme set you right, for heaven's sake-

"Wrong!" she exclaimed angrily. "D-d-didn't I hear your very words to that horrid brute on the phone? Isn't he g-g-going to fetch some m-m-misera ble baggage down here and-"

Just at that instant, however, John Hotclip arrived at the office with the miserable baggage. He was carrying the miserable baggage in his arms, and he deposited her in the guilty husband's arms, where she promptly cuddled up and looked content.

"Here, my dear," said the husband to his wife, "is the young female indi vidual about whom I was talking with Jack on the phone. I've had Jack on the lookout for a good one for a long time and he has been kind enough to get this crackajack for me. I wanted her for a present-a surprise presentfor you, you know.'

He handed the dainty little Japanese spaniel over to his wife, and it was her turn to look guilty.

Foxhounds Dash Over Cliff.

A fine 50-minutes' run with the East bourne foxhounds on Saturday had an exciting termination and brought about a serious loss to the pack. An see something wicked, and the girl excellent start was made, a stout fox did the dance in a bath robe! The being found in Mr. Gwynne's gorse near Folkington, and the field followed merrily after on to the downs.

Faster and faster went the fox and the hounds after him, until the quarry made straight for the cliff. The master saw the danger and used every effort to turn the pack, but in vain. and two couples and a half of the leading hounds had gone clear over the cliff and were killed before the remainder were stopped. The pace was the fastest of any run for several seasons.-London Standard.

Burglars' League.

Rules of a "Burglars' League," of which he was president, were found on Jean Relauci, who was arrested recently at Lyons. One provided for the exclusion of "any member who shows incapacity for the profession, and is arrested thrice in succession:" another provided for an admission test; and a third insisted on the equal division of the spoils.

Merely Local.

Start with Hot Poker. To take out rusty screws heat a poker red hot and hold it for a few moments to the head of the screw. Then use the proper sized screwdriver -to fit the slot of the screw-and it will come out quite easily and with very little trouble.

Left Blooming Alone.

"If you only knew what to expect," sighed the hostess: "but you don't and can't. Last month I went out and than what we get. old. The funeral was on Monday, and bought flowers for my party. Then my friends all sent me flowers-roses. the same, and, my goodness! There wasn't a single blooming flower in the flat. Not a one of them sent even a

A. Z. MEN

Published in Response to Many Requests.

My theme is a pleasant one, "a young man and a goodly" the A. Z. man, not only as he is tonight, but as his best friends expect him to be in the future.

That is, I speak of the present as an earnest of the future.

If we should attempt a list of the qualities of our subject, who will no doubt enjoy being dissected and classified in this present company, the result would I think run something ment will be valued. like this form A to Z. For surely we expect an A. Z. man to be.

Ardent. Buoyant, Capable. Devoted Earnest. Faithful, Generous Hospitable, Industrious, Joyful. Kind. Loyal, Manly. Neighborly, Open-hearted, Pure.

Quixotic sometimes Riotous never. Steadfast. True.

Useful. Veracious. Witty,

X-cellent qualities, too many to mention, will become his also, he solves the problems of life.

Youthful. Zealous in every good word and

Again we ask, what should a friend of the A. Z. man expect of him? What do I expect after twelve years of intimate friendship? A friendship which thro these years has been one of the rarest privileges of my life. I expect of the A. Z. man joy in

his work. He does not begin the day with a glum face nor end it disgruntled with all the world. For him the sun rises with a new splendor each day, its burdens are borne with a smile, and its hours bring continual cheer. "The Bliss of Growth, The Glory of

Action are his." He is continually at work and his reward, joy in doing it.

His cheer is contagious. As he goes along the street with gay cap and cherry whistle, the small boy spins his top the more merrily.

The weary discouraged toiler has a pleasant thought which lasts thro Young Thomas, afflicted with a dingy members of the sidewalk com- in brick or mortar, in stone or in wood. green apple pain in his midst, thus ex- mittee, who are sure that everything But every bit of plan and work is as ained his condition to his mother: even the weather is bound to turn out wrong, begin to say that it may be a pleasant day after all.

He carries cheer with him into the class-room, and makes the teachers' days bright and toil easy, and he can write a jolly rhyme as well of a failure as of success.

I expect, too, that the A. Z. man will be true in friendship.

I am not sure that his friends will always prove worthy. I sadly fear that in some of them he will have keen disappointment and bitter suffering, but the real essence of friendship is what we give

Such are the qualities which I expect of the A. Z. man. I expect him to be joyous in his work, true to say, his friends, calm in his judgments.

What then of the future? It is said of Dr. Grenfell, that heroic physician who has carried so much of life and light to the fishermen of Labrador, that he was convert loving loyalty." ed under the preaching of Dwight L. Moody. Fourteen years later he heard Moody preach. After the sermon he made his way to the great preacher and said to him, "Fourteen years ago I was converted under your preaching, and at that time I received a great inspiration to serve the Master." Mr. Moody chanced to be in a great haste, but he paused to listen while Dr. Grenfell said this and also to ask, "And what have you of dry cleaning. Phone No. 160. been doing since?"

I will share with you if I may, a vision which I have had of the future. Years from now, so many that not all of us may share in what I disclose to you. I see you men of A. Z. you who are our genial hosts tonight, coming together on this Berea ridge. And as you come you will say to your Alma Mater, you will say to Alpha Zeta Literary Society, "Under your fostering instruction and example of our teachers, from the close associations and blessed intimacies of A. Z. literary society, I received years ago here in Berea a great inspiration to serve my Master and His world." And then will your Alma Mater, then will your society pause in the midst of the affairs pressing at the moment, and say, "And what have you been doing since?" What then shall I, what then shall the friend of the A. Z. Man here tonight, expect will be your answer.

It may be, "I became an engineer, as I intended. It fell to me to conwork brings him the greatest possible struct a bridge over a fearful chasm where bridge after bridge had been washed away. Since then there have been storms of unparalleled violence but my bridge stands as firm as the mountains which it connects."

Or you may say, "I became an architect and builder, and in all my hours of drudgery, and even the buildings you can find no lie built true as the sun.'

Or, "I have spent my life in courts of law and on the judge's bench. It has been mine to heal the brokenhearted, to set at liberty those that were bruised, in our great country to help to right industrial conditions and bring in the acceptable year of the Lord."

Or, "I have written a book which

has helped thousands." Or, "I wrote a song which has cheered the toiler all over the land." Haply the answer will be, "I have devoted myself to the schools in my own county. And there is not a child or youth within its borders

whose chance in life is not better for

what I have done." Or, with a steadfast look he may say, "I heard a voice from over the seas, saying, "Come over and help us, and I went. In the Dark Continent where I have been, there are dusky people whose lives have been transformed by my ministrations."

But, perchance some A. Z. man may stand silent, making no answer at all. But his Alma Mater, who has not forgotten him, will say, "what of you my son?" And then he will speak, slowly, and scarcely raising his eyes, "I have done no great deeds, such as I had hoped to do. I have reared no great structures, written no great book, travelled to no foreign lands. My way in life has been plain before me. It has been my lot to stay at home, to provide peaceful days for the aged, to give the younger ones each a fair chance in life. To do this has meant years of toil and years of self-denial. It even meant leaving Berea before my course was finished. But, "he goes on, and he straightens himself to his full height and his worn features glow as he speaks, "my oldest boy who graduates next June, says his diploma shall be mine."

At this word, I heard a murmur as of interest and response from the A. Z. men. Looking, I saw that the rank of the company had opened, and that others had come in. At first, I had seen only the old familiar forms, figures grow taller perhaps and many of them broader, heads with hair whether bright or dark, straight or waving, sprinkled with silver, and faces showing lines of thought and

MEMBER OF KENTUCKY PRESS ASSOCIATION.

Mme. Louise Briand and Mme. Jeannes Menard, both graduate doctors of medicine, act as ship's physicians on two of the largest Mediterranean steamers.

The Prussian Academy of Science, benefiting by a \$7.500,000 legacy, again Illustrates the fact that science is one of the greatest of the modern multimillionaires.

A French promoter has ordered 50 Wright airships. This is an artistic order. It is that of a man who is determined to get plenty of atmosphere for his plans.

Statistics say there are 15,200 stenographers in New York. What a state of affairs would arise if they should all start in betraying office correspondence!

The barber of a British steamer was arrested at Philadelphia, charged with smuggling. It may have been from the force of habit that he was merely trying to shave down expenses.

Airship improvements are progressing with a rapidity that ought to afford Walter Wellman new encouragement in his cherished project of reaching the north pole by means of flight.

New York is to have a school to instruct office boys in their duties. The curriculum will not include a course in whistling of the popular ragtime melodies to a maddening extent. Such a course is totally unnecessary.

"Woman's place at the University of Berlin," says the Tageblatt of that city, "has already become an important one, although her rights have not yet been fully recognized there. According to the latest report 440 women were entered at the largest high school last summer and 753 attended the winter session. Degrees were conferred on 12; 10 in medicine and 2 in philosophy."

ast year young Mr. Astor was given an automobile by his indulgent father because he was not at the foot of his class. This year it is wondered what form the award of merit will take. Another automobile? Oh perhaps a nice, pretty runabout aeroplane would serve to jolly the young man. It is dreadful, though, to think how soon the list of desirable presents can be exhausted in his case.

As a precaution against coal dust explosions Prof. William Galloway said that if the coal dust in a roadway in a mine were regularly strewn with a sufficient amount of salts containing large quantities of water of crystallization, or with much larger proportions of the dusts of clay, slate, limestone, chalk or other substances, it would be rendered quite as innocuous as if it were damped with water.

It would be hard to find two men more different in their way than the two Jameses of Kentucky-Ollie M. James, a Democrat, and Addison James, a Republican. Ollie is a lawyer, and Addison a doctor. Representative James is a man of immense frame, big voice and spirited, characteristic of the lawyer; Representative Addison James is quiet and unassuming, like the modest doctor that he is.

One of the most remarkable freak newspapers ever printed was the Luminaara, published in Madrid. It was printed with ink containing phosphorus, so that the paper could be read in the dark. Another curiosity was called the Regal, printed with nonpoisonous ink on thin sheets of dough, which could be eaten, thus furnishing nourishment for the body as well as mind. Le Bien Etre promised those who subscribed for 40 years a pension and free burial.

The officials of New York have de clared that a large part of the city is practically fireproof. But about the only real proof of fireproofing is apparently to wait until fire attacks a building and then see whether or not it will burn the building down.

Moths have been eating forests in Saxony, while fire has been destryong ours. There must be conspiracy of natural forces against forestry this year, but that is all the more reason why human activity should prevent or repair nature's ravages.

MURDER ARMENIANS

SLAVING OF TWO MOSLEMS AVENGED BY 6,000 ENRAGED TURKS.

AMERICANS ARE IN DANGER

Massacre Occurs at Mersina Where the Christians Have Missions-Mutinous Marines Lynch Vice-Admiral in Constantinople.

Constantinople.-Reports from Mersina, a seaport of Asia Minor on the Mediterranean, Thursday, told of a massacre of Armenians by Turks, in which it is feared many were killed.

Enraged at the murder of two Mosems by an Armenian and the fact that the assassin was not apprehended, the Mohammedan population of Mersina, which counts a total of 10,000 inhabitants, took the law into its own hands and attacked the Armenian quarters.

The Christian communities of Mersina are appealing to the consuls here for help.

Two American missions are repre sented at Mersina.

The trouble at Mersina is in no way connected with the political up heaval at Constantinople of the last two days. It involves a recrudescence of the Armenian question, which is religious and racial, and has nothing to do with the internal policies of

Mersina is 36 miles by rail southeast of the city of Adana. It counts 6,000 Mohammedans and some 3,500 Christians. It has a station of the synod of the Reformed Presbyterian Church in North America and an outstation of the American Board of Commissioners for Foreign Missions. The record of 1907 shows that Rev. C. A. Evadna M. Sterrett were stationed at Mersina Mersina.

movement in this city was marked by some disorders, the most serious of which was a demonstration by marines, who objected to the new-minister of marine, Vice-Admiral Adjie min Pasha. The marines gathered in force Thursday and seized and conveyed to the palace Arif Bey, commander of the battleship Assar-i-Tew-

ing the committee. Arrived at the Yildiz Kiosk the men lynched Arif Bey, notwithstanding the efforts of the palace guard to save impossible. him. CHARGE CUDAHYS WITH FRAUD

PACKING COMPANY INDICTED ON 659 COUNTS AT TOPEKA.

Federal Grand Jury Charges Use of Coloring and Evasion of Law-Denied by Company Official.

Topeka, Kan.--The Cudahy Packing Company of Kansas City, Kan., is charged in indictments returned by the federal grand jury Friday with defrauding the government out of \$125, 000 by violating the law relating to oleomargarine. There are 695 counts, for each of which the penalty is \$1,000.

The revenue law provides that each pound of uncolored oleomargarine must bear a revenue stamp of a quarter of a cent, but that on each pound to which coloring matter has been added to give it the appearance of butter, a ten-cent revenue stamp must be attached.

It is charged in the indictments that the Cudahy Company has sold the colored product under the quarter of a cent tax and consequently has defrauded the government out of large sums.

Inspectors have been working on the case several months and have secured samples sold in towns and cities from New York to Seattle and from Duluth to Jacksonville.

Every sample now in the hands of the government experts bears the identification mark of the inspector who purchased it, as well as the analysis which shows that it contains color-

ing matter. It is claimed by the government officials that the Cudahy Company has succeeded in monopolizing the oleomargarine market by selling the colored product and paying the tax on the basis of uncolored, there being a difference of 9% cents a pound. By this means, it is claimed, they were enabled to undersell other manufacturers and control the market.

While this criminal action, which provides for a minimum fine of \$695, 000, will be prosecuted, District Attorney Bene says it does not end the matter. He will bring a civil action against the company to have the plant and machinery used in the manufacture of oleomargarine confiscated.

Washington.-Internal revenue officials said government agents have examined a very large number of samples of oleomargarine in many parts of the country sold by the Cudahy company, and that while it would not be expedient to estimate the amount of taxes involved in the al leged frauds, it is known that the officials believe it will be in excess of \$125,000, and possibly a much larger

OHIO RIVER STEAMER SINKS.

Fifty Panic-Stricken Passengers Saved by Crew When the Virginia Goes Down.

Pittsburg, Pa.-Following a remark able series of accidents and a tempestuous voyage, the steamer Virginia from Cincinnati, O., to Pittsburg, was finally wrecked in the Ohio river at Wellsville, O., Tuesday night.

The boat, the largest plying the upper Ohio, went down close to shore fter striking a rock and tearing a hole three feet long in the hull. The passengers, numbering 50, in a highly nervous condition as a result of minor accidents earlier in the evening, be came panic-stricken when the vessel met with the last accident, and it was with difficulty a crew of 75 men restrained them.

Although handcapped by darkness a high wind and drenching rain, the crew managed to place the passengers safely in boats and put them ashore From here they were taken, scantily clad, to a fire engine house in Wells ville, O., and later reached the warmth of a hotel in a patrol wagon.

When some distance from shore the steamer struck an obstruction with terrific force. The boat jarred mightily and the passengers were thrown from their berths.

ROB ILLINOIS BANK OF \$1.900

Woodlawn Institution, However, It Insured Against Desperadoes-Bandits at Wellsville, Mo.

Mount Vernon, Ill.-The bank at Woodlawn, a small town seven miles west of here on the Louisville & Nashville railroad, was robbed Thursday. Five masked men dynamited the safe, wrecking it and the interior of the building, and escaped with \$1,900 in currency. The bank was insured against robbery.

Wellsville, Mo .- Four masked rob bers blew open the safe of the post office here and escaped with a small quantity of stamps and one registered letter. The explosion aroused the town, but citizens were held back at the points of revolvers.

PLACE.-Antioch in Syria, and the is-

Suggestion and Practical Thought. "The church at Antioch, from which Paul's missionary journey started. Jerusalem had before been the center of influence, its heat and light radiating to Samaria, Joppa, Ethiopia, Cyrene, Damascus, Tarsus, Antioch. The ray that reached Antioch kindled, as it were, a new sun, which became a center of radiation

for Asia Minor and Europe. It was a small and struggling church. Paul and Barnabas were the strongest men in it, the leaders. How could they be spared? Our modern churches and Christians need to learn that it is not keeping, but giving

away, that enriches and strengthens. Missionaries Are Your Representatives.-Those whom you have commissioned, the official heads of the church, have sent the missionaries forth for you. They are your proxies. When you joined the church, you made its enterprises yours, and assumed responsibility for them. You became a partner in a business, the greatest business in the world. If the missions of your denomination fail or grow weak through your neglect, it is as great a disgrace as for you to become bankrupt in any other business to which you have made yourself a part-

ner. Lessons for Our Work .- 1. Paul and Barnabas went first to Cyprus, where they would find a beginning easiest. Wise workers always work along lines of least resistance.

2. They worked in the center of influence, a large city, where they could reach the most people. The church must never neglect the city. 3. They based their work upon the

word of God. We shall fail if we do not do the same. 4. They did not try to do their work alone, but utilized John Mark, and doubtless all the other helpers they could find. The most useful

workers are those that know how to set others to work. They were ignorant, as yet, that their great work was to be for the Gentiles, but they followed along the line of providence. "A flower will often remain furled for days till a sunbeam touches it, when instantly it will expand."-Baring-Gould. Their mis-

sion was preparing for a full unfold-

V. 8. "Elymas," not necessarily a proper name, being merely Aramaic for magician. He was a Jew; a false prophet, an impostor pretending to a knowledge of the future and teaching untrue doctrines; and he was a "sorcerer," magician or sage, the name given to the wise men from the East. the Magi of Matt. 2: 1, 7, 16. In those days superstition and science were commingled, and the scholar did not consider beneath him the arts of the

fortune-teller and the magician. "There stood before the proconsul the apostle of truth and the emissary of falsehood, like Moses and the magicians before Pharaoh."-Dean Vaughan. Victory over the opposition of the sorcerer was a specimen of all the missionary victories that have been won since, in countless numbers, all over the world. It was won by three

means:

1. By the power of the spirit (v. "Saul, (who also is called Paul"and henceforth, to mark his change of labors, the history drops his Jewish name. Saul, and uses the Gentile name solely) was filled with the Holy Ghost." "The tense of the Greek participle implies a sudden access of spiritual power, showing itself at once in insight into character, righteous indignation, and prevision of the divine chastisement."-Ellicott.

2. By bold speech (v. 10). Paul never minced matters. He spoke out his full heart. Thoughts were made for words, with him! With a stern face, his eyes fixed intently upon the sneering sorcerer (v. 9), he burst out with stern words: "O full of all subtility" (R. V. "guile," receit) "and all mischief" (the Greek word implies the easy doing of villains), "thou child of the devil" (though named, alas, Bar-Jesus, child of Jesus!) "thou enemy of all righteousness" (for the Greek word devil, means slanderer, false accuser, and therefore enemy of the truth and right), "wilt thou not cease to pervert," ("distort, turn aside) "the right (straight) ways of the Lord?" It was frankness and truth rebuking craftiness and lies, and doubtless every one within hearingand perhaps the wretch's own conscience-recognized the justice of the condemnation.

Minds Obedient Unto Christ. Our minds are dominated constant-

ly by one interest or another; with some, it is material things of different sorts; with others, it is intellectual interests, social interests, physical activities, and so on. But possessed and controlled, the mind is bound to be, by something; and it is for us to choose that something, if we will. Happy is he who chooses and persistently cultivates interests that are inexhaustible in their richness, and that grow better and more interesting as he is the more completely possessed by them.

Beating the Bookies

By JOHN IRVING DAY

In the Realm of High and Low Finance

police are keeping a close are liable to nab the could turn a trick." Doc Floyd, master mind of the High Rollers' club, was uttering words of wisdom can hear us?" to Danny Roberts, player of juvenile roles in the drama enacted by the members

of the club. But, old man, I've just to sell the professor a package, and there's nothing that would be so easy. He's bugs on the races. I've met him and got his confidence, and he doesn't know that I've got it in for him so hard that I'm going to make him take the high

"But why have you got to resort to the old 'wire game' to land him?" questioned Floyd. "And you haven't told me what gave you your grouch against him. Tell me about it."

"Well, if you only knew him, you wouldn't need to ask why anyone wouldn't want to hand him a package," replied Danny.

Could Herr Oberman, teacher of vocal music, by any occult power have overheard and comprehended the conversation that was going on between Danny Roberts and Doc Floyd he would have locked his questionably acquired fortune in the strong box of some safe deposit company and thrown the key away. Herr Oberman, graduate from the ranks of rathskeller musicians, had opened what he was pleased to term a conservatory of music in a Michigan avenue building habited by others of his kind. There, in a period of a few short years, he had waxed fat in purse and person, luring into his net, by attractive advertisements, young women with ambitions to outshine the Melbas and Mary Gardens of grand opera. To all of these he promised great things, but no prima donna ever had graduated from the school of Oberman. He was only one of many who preyed on the vanity of women who believed themselves possessed of divine voices.

It was a smiling, cheerful Danny Roberts that greeted the professor in the dingy pool room the day after his conversation with Doc Floyd.

"So another good dip, we have," was the gleeful remark of Herr Professor when he had read the message which advised a good bet on Cheese Cake. "Ve'll make dose boolroom fellers sick,

"That's it," replied Danny. "I've already got my bet down. You'd better hurry up before they cut the price I'll see you later. I've got to get down the street to meet a party."

Danny did not wait to see the frantic look and hear the swear words in German which were emitted by the professor when Cheese Cake failed to be heard from in the race. He hadn't lost a cent of his own money, but had faked a telegram for the express purpose of having Oberman lose.

The next day Oberman was waiting anxiously in the pool room when Danny appeared. Before the excited German could start to tell of his hard luck and how he had lost a whole hundred as its description was ticked out over the telegraph instrument.

"They're off! Rarebit in the lead, Handy Bill second; the others announcer's words, for he had not expected Rarebit to be heard from any more than Cheese Cake had on the previous day.

"Cashbox wins!" and Danny gave a sigh of relief which Oberman took to breathless Danny. be one of pain accompanying his own ond," continued the announcer. "Nar- of the winnings?" cissus is third."

"Now what do you think of that for hard luck?" was the mock moan of though." Danny to the professor, "There we

We are just in time for the his closing hour.

"I've got it!" whispered Danny, excitedly. "Is there anyone here that "No. What is it?" inquired the pro-

fessor, becoming interested. "Don't ask me now. I haven't got time to explain. Get your hat and

come with me. We must hurry." The excitement of Danny was contagious, and before he knew it Herr Professor was in the elevator and speeding towards the street. Once on

friend down Michigan and over across Jackson boulevard to the Western Union building. There he almost scruple occurred to Herr Oberman as fainting Herr Oberman to one side.

the sidewalk, Danny rushed his fat

fifth race at Los Angeles. My friend Brown is going to call me up here as soon as he gets the result from there and then we'll hurry up-stairs and get a bet down.

"Just so we'll be certain everything make a hundred dollar bet to-day, and the running throughout. then if it is O. K. we can pick out a race to-morrow to make our killing in. After that, there's nothing to hinder us from taking in some of the other rooms and we ought to be able to clean up a hundred thousand dollars apiece without anyone getting on to our game."

No such thing as a conscientious

Herr Oberman, puffing from the exertion of a brisk walk, arrived in due time at the rendezvous. "There, you answer the phone this time, and be sure you get the resulte

Doc Floyd and Jack Cleland, when

right," said Danny when the telephone bell jingled.

Still trembling with excitement, Herr Oberman grasped the receiver and was informed that Mr. Brown was talking. He wrote down the names of three horses: Wild Cat, first; Sweet Alice, second, and Romeo, third.

"All right, you bet your \$2,000 on Wild Cat, and I'll play Sweet Alice for a place," instructed Danny, when the professor had showed the names he had carefully penciled on the back of an envelope.

Why prolong the agony?

A moment after the wagers had been recorded the telegraph sounder began a business-like clicking. The operator announced in low tones that the race was off. The bettors crowded close to hear the calling of the description of the race. The three horses as given will go through all right, we'll only Herr Oberman were all prominent in

And then-"Romeo wins!" "What!" shrieked the professor.

"Wild Cat, second-" "Hell!" shouted Danny.

"Sweet Alice, third," continued the operator in low, sing-song tones.

"Whipsawed, or I'm a goat," muttered Danny, as he pulled the almost

WILL LEAD INSURGENT FIGHT FOR LOW TARIFF

Senator Root Opposed To Aldrich Schedule and Will Demand Duty Reductions on All Necessities.

Washington, April 19 .- At the proper time a motion will be made to recommit the Aldrich tariff bill to the senate finance committee with instructions to reduce the duties on certain necessaries of life. This motion will come from Republican insurgent senators.

Senator Elihu Root of New York is expected to make the motion, or at least to aid materially in the effort to have the bill recommitted. He does not like the bill and is making his objections to be known in forcible terms.

The tariff debate in the senate will begin Monday immediately after close of routine business. Senator Aldrich will open the proceedings with a general statement in support of the bill, and will be followed by Senator Daniel, senior Democratic member, who will outline the Democratic position.

Senator Aldrich will go into detailed explanation of the various changes made by the committee, and, it is understood, will undertake to show that the bill as reported will be a strong revenue producer. Senator Daniel and other Democrats will take the opposite view. They declare the weakness of the Payne-Aldrich bill is found in the fact that it will not insure sufficient income to permit governmental business to proceed without addition of other features which will put money into the national treasury. Some Republican senators are in sympathy with this view.

Democratic senators will urge an income tax as the most rational and most prolific means of increasing the receipts. All of them will support an income tax provision and several strenuously will urge a tax on all dealings in futures. They will have the support of some Republican senators, but will not receive any assistance from members of the committee on finance, as they take the position that with greater economy and improved business conditions, which all are predicting, the bill will insure sufficient revenue to meet the demands of the government.

There will not be any sharp dividing lines between general debate and the discussion of amendments, but it is expected that immediately after the close of the Aldrich and Daniel speeches the reading of the bill will proceed with a view to considering amendments. If senators desire to make set speeches, even on the general subject of the tariff, they will be permitted in connection with consideration of different schedules.

The house will be in session on Monday and Thursday only, and no business will be done on either day, beyoud making provision for the next

STRICKEN BY POISON

the Fourteen College Students Who Partook of a Club Dinner at Des Moines.

Des Moines, Ia., April 19.-Seven Des Moines college co-eds and seven male students Sunday night are in convulsions and one of them may die, following an attack of mysterious poisening after dinner at the Kamaraderie

and Altruria clubs. Milk was the one article taken in common by all the sufferers, but an examination of the fluid by State Chemist W. F. Frisbie and State Dairy Commissioner H. R. Wright failed to disclose ptomaines or other injurious bacteria.

Those stricken suddenly are: Miss Margaret Estel, Minnie Baker, Edith Anderson, Ruth Calvert, Dorothy Tinland, Edith Johnson, Emery Pease, Edward Hawkins, B. J. Powers, E. E. Clayton, Elmer Carter, Fred and Clarence Workman, the latter captain of Des Moines baseball and track teams.

Powers fell in convulsions at the door of his room and was stricken blind. It was feared at first he would die, but his condition is improved Sunday night.

Seven of the victims are in a precarious condition. Commissioner Wright said he believed tyrotoxicon poison in the milk is responsible for the attack.

Killed By Playmate. Meridian, Miss., April 19.-Lucien

Clayton is dead as the result of playing "William Tell" with his playmate, Andrew Davis. The lads were hunting and a small-calliber rifle was the weapon used. Young Clayton held the target for Davis and received a bullet in the body, which caused death a few hours afterward.

Quite a Blaze.

Helena, Ark., April 19 .- Fire of unknown origin in the business section of Helena, Sunday, caused a loss of \$100,000, with insurance estimated at \$50,000.

Holland's Gift.

Amsterdam, April 19.-The ship Halve Maan, which The Netherlands will present to the United States on the occasion of the Hudson-Fulton fetes, was launched Saturday. She will be completed and sent to New York in the early part of July.

First Boat Through Buffalo, N. Y., April 19 .- The City of Erie, the first passenger boat to arrive Tasmania here this spring, docked Sunday afternoon. She brought 100 passengers from Cleveland. The steamer had no difficulty getting through the ice.

ALCOHOL AND HUMAN SYSTEM

Injurious Effects of Excessive Drinking on the Brain, Nerves, Heart, and Other Organs of System.

The widely varied injuries on the human system that are inflicted on the human body are shown in a series of articles by Dr. Henry Smith Williams, contributed to McClure's Magazine. In the first, entitled "Alcohol and the Individual," Dr. Williams shows that the tissues of the brain, the nerves, the heart and blood-vessels, the stomach and intestinal tract. the lymphatic system, the kidneys, and the liver, may each and all become diseased by the habitual drinking of even small quantities of alcohol. He notes also that these consequences are not confined to the drinker, but are passed on to his descendants of successive generations.

All this, Dr. Williams tells us, may be compared to the eroding effect of a flowing stream, which has its greatest action on the part of its banks that is least resistant. So alcohol. circulating in the blood, tends to attack whatever organ or tissue may be weakest and most susceptible. Dr. Williams agrees with those who tend to class alcohol as a poison, and discards "the pernicious theory" that it 'gives any persistent increase of muscular power." He thinks that alcohol should be classed "with the more or less dangerous stimulants and narcotics, such as hasheesh, tobacco, etc., rather than with truly sustaining food-

In its action on the brain, he goes on to say, alcohol is an inhibitor and disturber of mental activity, not a promoter of it. This he regards as definitely proven by the experiments of the chief German investigators. Its effect is cumulative, so that the drinker of a single bottle of wine daily "is in reality never actually sober." Wine causes a loss of at least ten per cent. in working efficiency. It is not only itself a poison, but aids the action of other poisons, such as those of conta-

In his second article, Dr. Smith takes up the relations of alcohol and the community. Alcohol, as noted above, attacks the weakest point, the brain-cells which are the most delicate and unstable of all organic tissues, the brain-the organ of mindis the organ whose tissues are most susceptible. "So," says the writer, "when the dissecting-knife reveals, post mortem, a hob-nail liver or an alcoholic kidney, stomach, or heart, it will almost invariably reveal also a shrunken and 'watery' alcoholic brain. And in numberless cases in which all the other organs have seemed to present a granite-like resistance to the poison, the brain alone gives evidence

of having yielded to the strain." Alienists both here and in Europe, he states, agree that alcohol is a most potent cause of insanity. Statistics show also that it is a chief cause of crime and of pauperism. These disastrous effects on the community he

sums up thus: "At least one-third of all the recognized pauperism in the most highly civilized communities of Christendom results from bodily and mental inetficiency due to alcoholic indulgence. A similar correspondence of testimony shows, as we have seen, that the same cause is responsible for the mental overthrow of fully one-fourth of all the unfortunates who are sent to asylums for the insane; for the misfortunes of two-fifths of neglected or abandoned children; and for the moral delinquencies of at least half of the convicts in our prisons, and of not less than four-fifths of the inmates of our jails and workhouses. We have previously seen how alcohol adds to the death-roll through alliance with all manner of physical maladies.

"Did space permit, it might be shown how largely the same common enemy is responsible for suicides and sudden deaths by accident in many lands, for the universal prevalence of venereal diseases with all that they imply, and for a large proportion of such cases of marital infelicity as find record in the divorce courts. But these, after all, are only minor details within the larger scheme of human suffering already outlined. The insane, the criminals of various types, and the recipients of charity make up the great mass of abnormal members of the body-politic whose unfitness receives official recognition. Let it be particularly borne in mind that the conclusions just presented as to the casual relation of alcohol to the production of each of these abnormal elements of society are as far removed as possible from mere sentimental estimates or pessimistic guesses. They are inductions based on careful surveys of evidence.

Extent of Drink Evil in Australasia.

The official statistics showing the figures for cases of drunkenness in Great Britain's Australasian possessions for the year 1906 have just been issued and serve to show the extent of the drink evil in the islands of the Great South Seas.

Summarized, they are as follows: New South Wales......22,568
 Victoria
 14,029

 Queensland
 7,493

NEWSPAPER OBLIGATIONS

Everything that is published in a newspaper is not because the editor wants to publish it, but because it is a duty that the editor owes to the public, says the Elizabethtown News. An editor like everybody else has some unpleasant duties to perform. He is obliged under the sense of duty to the public to publish crimes and results of criminal cases. If he because the family would rather not moonshining in Jackson County, two have it published, he discriminates, Wagersville, April 19 .- Miss Della stills were destroyed and three boot- and that is not fair to the public. The editor may be very sorry that a man has gone wrong and violated the law, but the wrong is in the act and not in the publication. If we kept out, for instance one well known case of stealing and conviction of a party because he was prominent, and published the crimes of those not prominent it would be a discrimination both unjust and unfair.

When beef can be served to a sick person get a small piece of good porterhouse steak and broil it on the range. It will be free from frying grease, and the juices will not be boiled out. Cooked until tender, seasoned with fresh butter, salt and pepper, the dish is one of the most nutritious articles of food that can be given to furnish strength to a person regaining lost health.

Trade with South America. Nearly all the civil, mechanical and But a dumb play never has any electrical engineers, architects and salesmen in Chile are Europeans, and they are naturally in sympathy with European products. This is one reason why America gets so small a

share of that country's business. Dollarous. Any man who thinks more of a dollar than he does of his self-respect is in the insult-proof class .-- Chicago

BASEBALL AND LIFE

(By Grantland Rice.)

Just about the same:

We're after our hits in the same old

We'll risk our necks for a grandstand

play And the Umpire's voice has the final

Just about the same. We must "run 'em out" if we hope to

win And we're in there hustling for the

"tin"

Just about the same;

We must be right there with the sacrifice

And the little bunt we must not de-

spise-Yet we need our long-range batting

eyes Just about the same.

We must keep our eye on the ball throughout

Just about the same;

And swing at the good ones with a clout Just about the same;

When the right one comes it is fool-

ish to wait,

For the swing is lost that is made too late-

You can't hit a ball that has crossed the plate. In either game,

If we win-we're heroes true and tried

Just about the same: If we lose-we're hoboes on the slide Just about the same: And some are bound to the Big

Show trend. While others back to the Bush League wend.

But we'll all be "has-beens" in the

Just about the same.

An error rarely deserves abuse, Just about the same;

excuse, Just about the same.

Vhatever our measure of praise or blame,

We will all get there if we play the game. Just about the same.

Evil Effects of Hate. Hawthorne: The hate we bear out enemies injures their happiness less

than ours.
